

Narayan Thapa

Web Developer

Address: Brisbane,Au

Phone: +61-490916558

Email: thapanarayan66@gmail.com

OBJECTIVE

Hard-working, motivated and curious web developer with great energy to create awesome web products. Developed a point of sale webapp, landing pages, dynamic websites, dashboard applications and ui/ux designs . Passionate about web development, ui/ux and web technologies.

PROJECTS

PORTFOLIO — HTML, CSS, JS

A portfolio site to demonstrate my recent works made using css grids.

App: <https://www.thapanarayana.com/>

Code:

POS APP — MERN STACK

A point of sale app made with MERN stack . React redux has been used for state management. Also supports an authentication system.

App: <https://admirer-agnesi-ae86b4.netlify.app/>

Code: <https://github.com/t-ryan/POS>

CORONA TRACKER APP — REACT JS

A dashboard app built using react js and an external api to get actual data about covid-19.

App: <https://jolly-mahavira-d61fad.netlify.app/>

Code: <https://github.com/t-ryan/Corona-Tracker-2020>

WEATHER FORECAST APP — HTML, CSS, JS

App uses an external api which returns weather information about different cities.

App: <https://mystifying-jones-afa5f9.netlify.app/>

Code: https://github.com/t-ryan/react_weather_app
